

On the first day of April, we celebrate April Fool's Day. Children tell jokes and play pranks on others, but be careful - if you fool someone after midday, 12 o'clock, it's you who becomes the fool!

Here are some English jokes I loved to tell my friends at school:

What do cows do at the weekend?  
They go to the moo-vies!

What do spiders do on the computer?  
They surf the web!

A patient is at the doctor's office.  
Patient: Doctor, Doctor, help me! I think I'm invisible!  
Doctor: Next patient, please!

What fish only swims at night?  
A starfish!

Why is 6 afraid of 7?  
Because 7 8 9! (7 ate 9)
